FOKKER 100

The Fokker 100 (F100) is a high quality modern jet aircraft with an aerodynamic design and outstanding operational performance. The combination of low weight, great low speed capability and high performance engines makes the F100 the ideal aircraft for operating short to medium haul routes to a range of international and domestic destinations.

The passenger cabin is spacious with 100 all economy seating configuration, 33 inch seat pitch and 2 metres of standing height. With aft fuselage engine position, Tay low noise characteristics and clever noise attenuating features, the F100 complies with Stage 3 noise limitations making it the quietest jet aircraft in its class.

Specifications F100
